

E076 : ODOUR NEUTRALISER

additive for removing urine and foul odours

Description of product

Developed as an additive with complete compatibility with Selden extraction shampoos. Powerful bactericidal action - ideal for all care and institutional applications. High level of perfume to re-odourise furnishings after the removal of urine, faeces and vomit. Prevents bacteria build up in the carpet fibres.

Directions

Odour Neutraliser can be added straight into the detergent tank in the extraction machine. For every 1 Litre of cleaning solution in the detergent tank add between 10 and 50ml of Odour Neutraliser, depending on degree of soiling. Alternatively the detergent solution can be pre-mixed in a bucket before pouring in the detergent tank. Odour Neutraliser can also be diluted with 10 parts water and then sprayed evenly onto a clean carpet. For strong urine odours the product can be diluted down to equal parts with water for prespraying. Always extract after use, using C034 or C156, where the product has been pre-sprayed.

iNsight Supported

iNsight is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/insight>

iNsight recommended product uses

Carpet - odour neutralisation	typical dilution
Carpet - sanitising / disinfection	1 : 10 see label

Product Hazards and PPE Requirements

Danger

Contains : Didecyldimethylammonium chloride

Risk Phrases
Causes skin irritation. Causes serious eye damage.

Safety Phrases
Keep out of reach of children. Wash hands thoroughly after handling. Wear eye protection, protective gloves. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical attention. Take off contaminated clothing and wash before reuse.

Technical Data

Composition	A high active blend of quaternary ammonium salts, cationic cleaning agents, chelating agents and nonionic surfactants
Appearance	clear liquid
Colour	Yellow liquid
Cloud Point	>50
Density	0.999
pH	10.5
Fragrance	strong lemon
Stability	2 years in a unopened container
Statutory Conditions	All biocides/disinfectant/preservatives contained within Selden products fully comply with the EU Biocidal product Directive 98/8/EC, ensuring a high level of protection for humans, animals and the environment.

Environmental Profile

Biodegradability

All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO2 and water.
