

TASKI® Sani 4 in 1 Plus Conc.

Washroom cleaner, descaler, disinfectant and deodoriser in SmartDose® BPR approved

Description

Washroom cleaner, descaler, disinfectant and deodoriser for all acid resistant hard surfaces in washroom areas.

Key properties

- Acid based formulation
- Cleans, descales, disinfects and deodorises in one step
- Effective against bacteria, enveloped viruses and yeast
- Unique, patented Odour Neutralizing Technology (O.N.T.)

Benefits

- Excellent cleaner, works in a large spectrum of water hardness
- Reduces the number of products in the washroom area
- Excellent hygiene, reducing the risk of cross contamination
- Leaves a pleasant, fresh fragrance

Use Instructions

TASKI Sani 4 in 1 Plus is supplied in SmartDose dosing system for convenient and controlled dosing of the product into a spray bottle or bucket.

Dosage*

Spray application: Fill the 500 ml trigger bottle with water. Turn yellow head to trigger bottle position, pull head up, then push down fully to dispense 1x10ml (2%) into the trigger bottle. Attach the trigger and shake bottle gently.

Bucket application: Fill bucket with water. Turn yellow head to bucket position: pull head up, then push down fully. Dose 1x70ml per 3.5L water (2%).

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

Application

Outside of healthcare environments (e.g. public areas, hotels and other institutional areas such as schools/offices etc.) the product use is approved in a 1-step cleaning process (dirty conditions).

In healthcare environments, defined where disinfection is medically indicated (e.g. doctor offices, ambulances, hospital wards and LTC), the use of the product requires a 2-step cleaning process. Remove gross soiling and pre-clean the surface before applying the product.

- Apply the diluted product by fully wetting the surface.
- Use a cloth, brush, sponge or mop for even distribution.
- Leave the surface wet for 5 minutes against bacteria and enveloped viruses and 15 minutes against yeast.
- Wipe dry or let the surface air dry.
- Rinsing of the surface is not required.

TASKI® Sani 4 in 1 Plus Conc.

Technical data

Appearance: Clear red liquid
pH value (neat): < 2
pH value (in use): < 2
Relative density (20°C): ≈ 1.09

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists. Use disinfectants safely. Always read the label and product information before use and follow local regulations and advisory.

Product compatibility

Do not mix with other products. Do not use on water or acid sensitive surfaces. Sufficiently pre-wet grout with water before use. Test material compatibility in a small, inconspicuous place before use.

Microbiological data

EN Test Method	Soiling Conditions	Temp. °C	Contact Time	Test organisms	Pass Concentration % v/v
